Iris Droplets

Swarovski crystals

Product Group	Article No.	Amount	Size	Color	Color Code
Beads	5040	58 pcs	6mm	Iris	219
Beads	5328	71 pcs	4mm	Iris	219
Chatons	1088	6 pcs	SS39	Iris F	219

Supplies:

- 1 – 1 ¼" Hammered Ring - TierraCast® 94-3231-61
- 6 – Plain Chaton Drops Frames - TierraCast® 94-2545-61
- 1 – Heirloom Toggle Clasp - TierraCast® 94-6070-12
- 11 – Small oval jump rings
- 24" – Beading wire
- 4 – 2mm crimp beads
- 4 – 3mm crimp covers
- 18" – 24 gauge Artistic Wire®
- Alcohol wipes
- Swarovski CG500 two part epoxy glue

SWAROVSKI

CREATE YOUR STYLE

Instructions:

- Step 1: Using alcohol wipes clean all off the drops and set aside to dry.
- Step 2: Using one 1088 SS39 Iris chaton glue into matching finding. Repeat five more times and set aside to dry for 24 hours.
- Step 3: Using 24g wire, wire wrap onto the hammered ring two wraps. Then add (1) Art. 5328 4mm bicone in Iris. Repeat 10 more times for a total of 11 crystal beads. Separate each crystal bead with two wraps of wire. Make sure the wire is wrapping in the same direction for each crystal bead. When completed, the wired end should be snug against the hammered ring so that it will not unwind. Nip the excess wire from the back side of the ring.
- Step 4: Attach (2) small oval jump rings to each of the components made in step 2. Set aside.
- Step 5: Attach (1) component made in step 4 to the center of the hammered ring. The jump ring should hang from the back side of the wired wrap making sure you have the jump ring in the proper position so that the component made in step 2 will hang correctly. Repeat this step two times to the right of center and two times to the left of center. Hanging the components evenly around the ring works best.
- Step 6: Using 12" of stringing wire, crimp to the top of the hammered ring, Cover crimp with crimp cover and nip the excess wire tail. Begin stringing (1) 4mm 5328 crystal bicone in Iris and (1) 5040 crystal bead in Iris, repeat 27 times, string on one component made in step 2 and end with (1) bicone. Crimp to one side of the toggle pair. Cover crimp with a crimp cover and nip off the excess wire.
- Step 7: Repeat step 6 for the second side of the necklace. On this side you will not be adding a dangle component. You will be finishing off the side with (1) bicone. Crimp to the second side of the toggle pair. Cover crimp with crimp cover and nip off the excess wire.

Instructions:

- Step 1: Using alcohol wipes clean all off the drop findings and set aside to dry.
- Step 2: Using one 4228 15x7mm navette fancy stone glue into matching finding. Repeat 7 more times and set aside to dry for 24 hours.
- Step 3: Cut the chain into eight 1" pieces and eight 2" pieces
- Step 4: To create tassel #1: Take one head pin and slide on one 4mm 5328 Chrysolite Shimmer 2X bead, one bead cap facing down, and one 6mm 5000 Chrysolite Shimmer bead and make a simple loop. Taking the four Chrysolite Opal findings made in Step 2 attach each of them to a 1" piece of chain using a small jump ring. Then using a medium jump ring attach the other end of the chain to every other opening in the bead cap so that the crystal faces out. Now take four 2" pieces of chain and using the medium jump rings attach one each to the open holes in the bead cap.
- Step 5: To create tassel #2: Take one head pin and slide on one 4mm 5328 Pacific Opal Shimmer 2X bead, one bead cap facing down, and one 6mm 5000 Pacific Opal Shimmer bead and make a simple loop. Taking the four Pacific Opal findings made in Step 2 attach each of them to a 1" piece of chain using a small jump ring. Then using a medium jump ring attach the other end of the chain to every other opening in the bead cap so that the crystal faces out. Now take four 2" pieces of chain and using the medium jump rings attach one each to the open holes in the bead cap.
- Step 6: To create Lariat: Using beading wire slide on one crimp bead and then slide on Tassel #1 and crimp to close. Add crimp cover. Now begin sliding on all the Pacific Opal Shimmer 5328 and 5000 beads either randomly or making your own pattern until they are all used up. Now begin sliding on all the Chrysolite Opal Shimmer 5328 and 5000 beads either randomly or making your own pattern until they are all used up. Slide on one crimp bead, slide on Tassel #2 and crimp to close. Add crimp cover.

Instructions:

Step 1: Cut the wire into two 2" pieces, two 1" pieces, four 3" pieces and set aside.

Step 2: Using one 14mm Imperial Fancy stone place into one 14mm matching finding and bend down the prongs. Repeat once and set aside.

Step 3: Using one 18mm Imperial Fancy stone place into one 18mm matching finding and bend down the prongs. Repeat once and set aside.

Step 4: Using one 1" piece of wire make a simple loop at one, slide on three 4mm briolette beads and make a simple loop and attach one 14mm Rhombus pendant. Repeat once and set aside

Step 5: Using one 2" piece of wire make a simple loop at one, slide on five 4mm briolette beads and make a simple loop and attach one 14mm Rhombus pendant. Repeat once and set aside

Step 6: Using one 3" piece of wire make a simple loop at one end and attach the component made in Step 4. Slide wire through the left holes of the 14mm Imperial fancy finding, slide on five 4mm Briolette beads and then slide wire through the left holes of the 18mm Imperial fancy finding, slide on one oval jump ring and make a simple loop to close.

Step 7: Using one 3" piece of wire make a simple loop at one end and attach the component made in Step 5. Slide wire through the right holes of the 14mm Imperial fancy finding, slide on five 4mm Briolette beads and then slide wire through the right holes of the 18mm Imperial fancy finding, slide onto the oval jump ring already at the top and make a simple loop to close.

Step 8: Using one Add a Bead Ear Wire slide on one 4mm Briolette bead and make a simple loop. Add to the jump ring at the top of the earring.

Step 9: Repeat Steps 6-8 to make second earring.

Instructions:

Components

1. Using 46 delica beads in peyote stitch capture the 18mm Rivoli for a total of 3 rows. Next, add 3 rows up (insert 18mm Rivoli) and 3 rows down using size 15/0 seeds in peyote stitch. Embellish along the widest part of the Rivoli between the Delica beads with 3mm Iris 2x crystals. Using the 2mm 5810 pearls, embellish between the outer Delica beads on the correct side of the Rivoli stone. Repeat for second pair. Set aside.
2. Using the 11/0 seed beads make 13 units of Right Angle Weave and attach the two sides together to make a circle. While holding the bead work in place, * Stitch in the spaces at the top, 1 Delica bead in each space for a total of 13 beads. Note: One space is skipped. This is how the point is made. Slip in the Crystal Ignite fancy stone, Art. 4320 with the point of the stone in the space where the Delica bead is missing. Using Peyote stitch, stitch the 15/0 seed beads for a total of 13 beads. Repeat from * for the wrong side of the 4320 fancy stone. To embellish, use the 2mm 5810 pearls and stitch one pearl into each space of the right angle weave units. Repeat for second pair. Set aside.
3. Using the 3mm 5328 Iris 2x crystals, weave 3 right angle weave units. Close into a circle with the fourth. Slip on one 3mm 5328 Iris 2x crystal onto head pin, one 3mm RAW unit, and one 3mm 5328 Iris 2x crystal. Repeat for second pair. Set aside.
4. Connect component #1 to component #2 using 2mm 5810 pearls in CRAW for two units total making sure to use one embellished 2mm pearl from each component in the CRAW.
Stitch 11, 11/0 seed beads at the top of component one to create the earring loop (reinforce). Stitch 3, 15/0 seed beads at the bottom point of component #2 behind the 2mm pearl (reinforce). Using component #3 make a wire wrapped loop into the loop at the bottom point of component #2. Nip wire tail off and tuck. Using (1) 4mm Iris 5328 crystal, slip onto (1) add-a-bead ear wire. Create a simple loop and attach to the top seed bead loop of component #1 before closing the loop.
5. Repeat step 4 for the second pair.
